"R" MI-DE WOODSHOP

MEMBER, THE AMERICAN ASSOCIATION OF WOODTURNERS

**INDIVIDUALLY HANDCRAFTED.  
AMERICAN MADE.**

In his wood shop that's located in the same barn where he milked cows as a boy, Mike Rogers draws from a diverse assortment of native and exotic woods to meticulously craft a variety of strikingly beautiful artistic creations that can also "earn their keep"—pepper mills, coffee grinders, salt & pepper shakers, desk sets, and more. Using his God-given talent and innovative wood-turning techniques that he developed himself, Mike puts

*"Creating useful and unique things that I know people will like is what drives me."*

— INDIANA WOOD ARTIST, MIKE ROGERS

something of himself into every creation. The result is that every piece is truly unique – like none other in the world – including his personal brand on each finished piece.
